Tire Shiner

Weicar Tire Shiner Sprey polishes and protects your tires and plastic parts in one step. It keeps your tires and plastic parts looking like new for a long time. It is water-resistant (water-repellent). It helps keep your tires shiny for a long time, especially during harsh winter months. It prevents cracking that may occur on tire surfaces and plastic parts.

Areas of Use: Vehicle Tires (Sidewalls): Provides a deep and lasting shine, protects against the sun's UV rays, and prevents the rubber from browning and cracking over time. Unpainted plastic bumpers, door trims, fender flares, and wiper blades (grilles). Revitalizes and renews the color of faded plastics. Rubber sealing strips around doors, trunks, and windows.

Net Weight	460gr
Gross Weight	510gr
Volume	500ml
Package	12pcs
Pallet	1600pcs
Pallet Dim	100x120x215h
Shape	Trigger Spray
Barcode(EAN)	0700343203815

Directions for Use: Wash and completely dry the area before application. Spray a sufficient amount of product onto the surface. Spread the product evenly over the tire or plastic surface using a sponge. Never use the product on steering wheels or brake pedals (it may make the surface slippery and endanger driving safety). Do not expose the bottle to direct sunlight; store it in the shade.

Hazard Pictograms:

Storage Conditions: Store in cool and ventilated area. Recommended storage temperature: 15 - 30 °C. Keep out of reach of children.
